Call for papers

As a part of GIFA/NEWCAST 2019, Bundesverband der Deutschen Gießerei-Industrie e. V. (BDG) and Verein Deutscher Giessereifachleute e. V. (VDG) are again organizing the following fora:

the GIFA Forum

is primarily addressed to foundry suppliers and deals with topics like

- > process and product development
- > digitalisation and information management
- > efficiency of resources and environmental sustainability
- > manufacturing technology and automation

the NEWCAST Forum

presents perspectives for the application of state of the art cast materials and products. The technical presentations will concentrate on

- > casting product development
- > substitution of materials and processes
- > component construction and design
- > optimization and simulation
- > light-weight design and conservation of resources

This forum supports a dialogue between suppliers, designers and foundrymen and achieves synergies for both research and industry.

English and German (with simultaneous translation into English) presentations will be accepted at all conferences.

Please send a short abstract and your CV
by **31 December 2018** to
